MONDAY AFTERNOON, SEPT. 15.

EXCHANGE PAPERS.—We continue to receive by every mail newspapers containing our little card "To the Pub-lis," and saking an exchange. Our offer in that has been long since revoked.

The Cabinet.

The President of the United States departed from our city at six o'clock this morning, to proceed direct to Newport, where, we regret to learn, Mrs. Fillmore is detained by a serious accident, (a sprained ankle,) that prevents her present removal. He will reach Boston in season to participate in the celebration of the 17th inst.

Mr. CONRAD, Secretary of War, and Mr. STUART, Secretary of the Home Department, have accompanied the President.

Mr. WEBSTER, in but indifferent health him self, will probably feel called upon to remain at the side of his afflicted son, Mr. FLETCHER WEBSTER.

Mr. CRITTENDEN is still absent, and has his full share of affliction in the recent death of a mother, a wife and a nephew.

Mr. GRAHAM, Secretary of the Navy, CORWIN, Secretary of the Treasury, and Mr. HALL. Postmaster General, are the only members of the Cabinet now in this city.

Collector of New Orleans.

It will be recollected that we announced about two weeks since, the removal, by the President of the United States, of WILLIAM PRESET, esq., from the office of Collector of the Customs for the port of New Orleans, and the sppointment of Christopher Adams, esq., to fill the vacancy. This announcement was made in advance of our contemporaries. Mr. ADAMS, in a telegraphic despatch to the Treasury Department, declined the acceptance of the office.

We have now to announce, upon unquestionable authority, the appointment of GEORGE C. LAWRENSON, esq. The selection of this gentleman to fill so important a post—the collectorship of the great commercial mart of the Southwest, the largest exporting city in the Unionis, in our opinion, wise and judicious. This recipient of Governmental favor is a young man of winning and popular manners, pleasing address, unsullied integrity, and extensive mercantile information. It is well to add that he is a Whig, and that during the last Presidential campaign he evinced zeal and enthusiasm in the sause of "Taylor and Fillmore." Mr. L. is a native of Alexandria, Virginia, and a son of Thomas Lawrenson, deceased, of the eminent commercial house of Lawrenson & Fowle, of that town. The appointment will carry gladness to the people of the place of Mr. L.'s nativity, and we repeat our conviction that it will prove popular in the city and State of his

THE POST-OFFICE CONTRACT FOR PRINTING .-We are gratified to learn that, although the invitation for contracts for this work extended to all persons whom the regular mails from this city ould reach in forty-eight hours, the successful bidder is one of our own citizens, Mr. Columbus ALEXANDER. The Republic informs us that of seven bidders four were of this city, two of New Tork, and one of Cincinnati. Printers at a distance seem to appreciate the inconvenience of executing such contracts afar off from the source of direction.

We are not informed of their ultimate fate at the hour of going to press.

THE CHRISTIAN STATESMAN .- The second samber of this new Weekly appeared on Saturday last, clear and handsome in appearance and rich in contents. Messrs. Gurley & Goodlor will do much good in the prosecution of this valuable publication, and we hope success may attend them. The Colonization cause opens field of rare usefulness, and by the aid of the Statesman many will no doubt be induced to enter it as co-laborers.

THE WILLIAM SELDEN .- This new and beautiful steamer is now being completed at the foot of Seventh street, at Capt. Page's yard, and is worthy the visits and inspection of our citizens. She will be finally prepared to enter for duty in about two weeks, when she will make an excursion down the river. We have not yet heard what will be her permanent sphere of action.

Mas. Conwin .- The Metropolitan notices the return of this lady from Ohio, and says she is in her manners "amiable, frank, and unasguming;" and remarks that "no change of position or circumstances will effect a change in the deportment of a true lady."

We learn that Major General Scott returned to Washington on Saturday evening from his visit to the Virginia springs in improved health.

THE PENESTLVANIA RIOT .- The younger Mr. Gorsuch is dangerously wounded. The authorides of Pennsylvania are acting with vigor, and have made some twenty arrests. Much excitement prevails; and it is said that certain white dvisers of the negroes will be made to account for their agency in the matter. The prisoners are secured in Philadelphia as soon as cap-

SEVERE ACCIDENT .- Mr. and Mrs. Hall, who reside next to Judge Cranch's, on Capitol Hill, were last night severely injured by the unexsition of the camphine in a vessel in bade of Mrs. H. About to fill an oil lamp, all the aid necessary in the case.

THE CENTRAL ACADEMY. - We desire to comformer a brother of the gentlemen by whom the Rittenhouse Academy was instituted, and of this city received the instruction and guidusefulness and success in life. The family with which they are connected has long been known here, and many of its members have distinguished themselves in the paths of honorable usefulness amongst us; yet perhaps none more so than they who are now engaged in the highly responsible duty of educating a select number of young persons for the duties of life, upon which they are soon to enter.

CENTRAL ACADEMY occupies the second story of the old Medical College, at the corner of E and 10th streets. For its use this large edifice was purchased and improved some two years since. The first story is occupied as a Bible the Masonic Lodge, and the second by this excellent classical, mathematical and scientific school. The main room of the Academy, in the second story, is forty by thirty feet, and has frequently been used as a public lectureroom. The air has free access from all sides, and by its position it is relieved from the noise, and especially from the dust, of the streets. The ceiling is twelve feet high, and hence the air is always pure, a thing of great importance in a school-room. Some of the other rooms of the same story are used for recitations, which affords relief to those who are engaged in study at their desks by withdrawing the noise of those who are reciting.

The desks and seats are of Boston manufacture like those in the Rittenhouse and Union Academies, which we have already noticed. The advantages of these, for comfort, convenience, cleanliness, steadiness, and quietness to the pupils, we need not dwell upon. In the Academy there is room to seat ninety pupils, but the number is limited to sixty, to whom the whole time of the two principals, from eight and a half a. m. to three p. m., is pledged, lards are the producers. This is a gross error. with an assistant part of the time. This number is not yet filled up, but this will not long of taxes. They are under a close surveillance, be the case. We perceive by their annual circular that they have made a very judicious cular that they have made a very judicious other without a passport. Taxed not ten per selection of books for study, and give their puccent. only, as Mr. Bryant says, but really more pils also access to others for consultation. The terms for tuition are moderate.

In speaking of this Academy, an intelligent and discriminating observer remarks, that "it is sincerely to be hoped that an institution pre-that they should squirm? They are totally deprived of all semblance of personal rights. fort and intellectual advancement of its pupils, will meet with that liberal public patronage which it so much deserves; for we are sure that those who are permitted to enjoy the privilege of receiving instruction at this Academy will advance in their studies as rapidly as is compatible with a judicious course of instruction, and they send these things to market. Ice is to the full satisfaction of their parents and friends."

Arrival of the Pacific.

The steamship Pacific, with Liverpool dates of the 3d, arrived at New York yesterday evening. She brings a large freight of fine goods and one hundred and ninety-two passengers, sels carrying away produce; and this sum is among whom are Miss Catharine Hayes and levied in other port charges—all of which the Hackett the comedian. MARKETS .- The cotton market has been less animated since the Niagara sailed, prices closing rather in favor of buyers, without any quotable change. Some circulars quote a de-cline of d. Sales of the four days 22,000 bales, of which speculators took 1,200 and exporters 3,000 bales. The stock at Liverpool is 647,000 bales, being 11,000 less than estimated. > > Taxation in Cuba.

A detroit paper says: "We met Mr. Bryant in Cuba, and know how well he understands the affairs of that country. The general facts he states are suffi-cient to astound any man.
